

Acceptable User & Use Policy for GRENA

The Georgian Research and Educational Networking Association GRENA network is a national computer network for universities, educational and research institutes in the Georgia. Connecting to the GRENA network is restricted to the following organizations:

- Universities
- Institutes for higher educations
- Research institutes
- Libraries
- Academic hospitals
- International organizations working in education and their programs

The communication and information services provided to these institutions include full Internet connectivity and are intended both for the staff and the students of the connected institutions. GRENA is not providing any kind of connectivity including dialup access for individuals, even for staff or students of the above mentioned organizations.

Other organizations could be connected to GRENA network temporary for testing and developing advanced networking technologies and applications.
