

Acceptable User & Use Policy for KRENA-AkNet network

1. The Kyrgyz Research and Education Network Association (KRENA-AkNet) network is the national computer network for higher education and research in Kyrgyz Republic .
2. Connecting to the KRENA-AkNet network is restricted to the following organisations:
 - Universities
 - Academic hospitals
 - Institutes for higher professional education
 - Research institutes
 - Scientific libraries
 - Public Libraries
3. The communication and information services provided to these institutions include full Internet connectivity and are intended only for the staff and the students of the connected institutions.
4. The international facilities may not be used by commercial entities except as specified in (5) below.
5. Within approved technological projects, other organisations in Kyrgyz Republic are allowed to connect to the KRENA-AkNet network for the sole purpose of testing and developing advanced network technologies and applications.
6. Within approved projects for national development, other organisations and individuals are allowed to connect to the KRENA-AkNet network for the purposes of the project. Their use of the international SILK facilities may not be commercial. Such development projects must be specifically approved for use of the KRENA-AkNet network, and a list of such projects must be available to the SILK Board.
7. In some cases, the types of international usage made by users in (5) and (6) may be constrained to a subset of full Internet connectivity. Information on such constraints must be available to the SILK Board.
