
SILK AUPS (SB2-16)

INTRODUCTION

Every country connecting to the Silk infrastructure should have an NREN and this NREN should have an AUP (Acceptable Use Policy) that has been approved by the Silk Task Force / Silk Board. Not all of the countries have submitted an AUP yet that has been approved by the either Silk Task Force or Silk

CURRENT STATUS

The current status of the AUPs as they are on the web:

AUPS OF THE SILK NRENS

In order to be applicable for Silk each country should have an NREN that represents most of Science and Education in the country and this NREN should have an accepted AUP. The most recent AUPs may be found on this page:

- Armenia Has been submitted, but not approved by the Silk Task Force
- [Azerbaijan](#) Has been submitted and approved by the Silk Task Force
- [Georgia](#) Admitted and approved by the Silk Task Force
- [Kazakhstan](#) Admitted and approved by the Silk Task Force
- [Republic of Kyrgyzstan](#) Admitted and approved by the Silk Task Force
- [Tajikistan](#) Admitted and approved by the Silk Task Force
- Turkmenistan Has not been submitted yet
- Uzbekistan An AUP for UzSciNet has been submitted, and is satisfactory as an AUP to the Silk Task Force. However the Aricles of the Association of UzSciNet have not yet been submitted; thus UzSciNet has not yet been approved as an NREN.

SILK BOARD DECISION

The Silk Board should validate the decisions of the Silk Task Force regarding the approved AUPs as well as the reasons for not approving the other AUPs.
